

Daniel Doke Fine Art
Portraits

Our goal here at Daniel Doke is to have a
wall portrait in every home.

Celebrate

What Matters Most

Wall Portrait Art

The family portraits you display in your home are designed to not only elevate your home decor but to elevate your heart and mind every time you view them.

Each piece is tangible evidence of the magic within your home and a celebration of your family.

Whether it's a collection of wall portraits or a set of gift prints, each of your portraits receives the same loving care. We will fully enhance each image to showcase the best version of you while maintaining a natural look.

Your meticulously finished portrait will become an heirloom masterpiece that will delight your family for generations to come.

Experience

Your Families Style

Before your session

We begin your experience by exploring themes and ideas that represents you as a person, family or couple.

Commissioned artists collaborate and design a portrait specifically for their client. We will do the same with a planning session so we can create the perfect piece of art for your home that embodies your tastes, goals and desires.

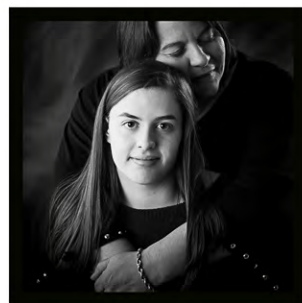

During your session

Dan will capture every expression through a relaxed, fun and enjoyable portrait session. In the end, you will have a masterpiece that reflects the essence of who you and your family are.

In their own words

"Hold on tight and let go..... The Black and White Relationship portraits capture the essence of this time in my life. Since my daughters were born, they have been the center of my world. Everything I did was for them. Today, I looked at my girls and can't believe how time has flown by. I am so proud of them. They know they always have my love and support no matter where they are. I want to hold on tight to them, but now it is time to let go. I will always remember our special relationships and how it feels to hold them close." - Dolores

Where

Timeless & Beautiful
Portraits Begin

A great portrait has the power to take your breath away.

Daniel is able to stop time with his camera. This is only the first step in his flagship style "Impasto Paintings". He blends together different methods and techniques to create an artistic painting that comes to life like no other. These museum quality portraits are printed on the finest linens and finished with acrylics.

The story of your family will be proudly hung in your home and treasured forever.

*"I want to touch people with my art. I
want them to say 'he feels deeply,
he feels tenderly.'"*

Vincent Van Gogh

Begin

Your Journey

FIRST: Your design consultation will be scheduled. We will discuss what style portrait you are looking for, who will be in the portrait, clothing, location and where your wall art will be displayed in your home.

SECOND: It's time for your portrait session! This is the easiest and least stressful step in creating beautiful portraits. Let us expertly pose and direct you to bring out the best in each person of your family.

THIRD: The reveal, selection and ordering will take place within a week of your portrait session. By using photos of your walls, you will be able to see what your finished portraits will look like displayed in your home.

LASTLY: To schedule your appointment we require a refundable reservation deposit.

The Studio

Studio & Gardens

Our studio is located in the heart of a residential area which enables our clients to feel at home during their session. The 2.5 acre Portrait Park is sculpted to create the perfect background. The Portrait Park is designed as an ideal background with cobblestone wishing well, a small barn with a stone entrance way, a gazebo and a beautiful decorative area with posing rocks surrounded with sun-kissed flowers. This natural year round beauty makes our portraits heartwarming and great reflection of the verdant beauty our Massachusetts home.

Sessions in our Portrait Park are more natural and relaxed.

Outdoor family portraits are a beautiful time to make everlasting memories.

It's important to know that when done correctly outdoor portraits come out breathtaking.

The outdoor photography with natural light, use of flash and other lighting prevents shadowing and shows you in your best light.

During the Swing Into Spring and Sweet Summer months our Portrait Park comes to life. The vibrant greens and flowers that have bloomed from the warm sun will make your experience unforgettable.

"Autumn is a second spring when every leaf is a flower." The Portrait Park is aglow with colorful leaves of reds, golds, oranges and yellows.

The beauty of nature is always a lovely background for your family portrait.
